Subject: Follow-Up Testing Completed – Conforming Results
Sample Tag: F212151682
Model: Gaskets
File: EX15869, Vol. 1

Dear Sir/Madam:

Any information and documentation involving UL Mark services are provided on behalf of UL LLC (UL) or any authorized licensee of UL.

The Follow-Up Services Testing has been completed on the Push-on joint gasket material for pipe - component, Gaskets selected by our Field Engineer at your GRIPPER GASKET L L C, CORONA CA, 92879-2061, US factory on August 02, 2021.

The following tests were conducted with conforming results:

TENSILE STRENGTH AND ELONGATION AS RECEIVED
HARDNESS TEST - AS RECEIVED (MEASURED BY SHORE DUROMETER)
COMPRESSION SET TEST (RECOVERY OF RUBBER, 3 SAMPLES)
TENSILE SET (RECOVERY TEST) - EXTENT OF RECOVERY OF ELASTOMER AFTER STRETCHING
TENSILE STRENGTH AND ELONGATION AFTER AGING OR CONDITIONING
HARDNESS TEST - AFTER OVEN AGING OR CONDITIONING (MEASURED BY SHORE DUROMETER)

Your continued cooperation in maintaining conformance with the applicable test requirements is appreciated.

All the samples will be discarded after 2 days unless they are requested to be returned or pick up. If you would like to have the sample returned, please provide us with the shipping account information for the shipping charges or notify us if you want to pick up the samples. Note: For samples containing Batteries, due to instability of tested samples, UL will not ship any battery samples back. If you would like to have the samples back, you must inform us to make special arrangements to pick up tested battery samples.

If we can be of any further assistance, please do not hesitate to contact SHELBY NELSON at +1 847 664 2427 or via email at FUSAdmin.FPD@ul.com.

=====

NOTE: Should any of your FUS Sample Testing contact information change, please let us know so our records can be updated.
