RE: Shelf Life of the MAXADAPTOR® Coupling

The **MAXADAPTOR®** line of products are manufactured of quality materials for maximum performance and durability. Consisting of an injection molded EPDM rubber gasket, a high impact polyimide (nylon) securing cage, and corrosion resistant AISI 304 series stainless steel components, **MAXADAPTOR® Couplings in a covered storage facility (less than 80° F) and not exposed to sunlight have a shelf life of ± 10 years.**

Gripper Gasket LLC is firmly committed to providing materials and services that meet or exceed our customer's requirements and continually improve the quality of our products, services, and systems.

Best regards,

A handwritten signature in blue ink, appearing to read 'Chris Vansell', with a stylized flourish at the end.
